TELL Manly Council that

ENOUGH is ENOUGH

Manly Council's 2015 Plan is a debacle. It's high risk, will incur major debt and provide only 40 additional parking spaces in a less convenient location.

WHY ARE THE LIBERAL COUNCILLORS SUPPORTING THIS?

Right now, the project is poised to go to tender... **but we can still stop it!**

THE SOLUTION – HOW TO SAVE MANLY VILLAGE

We can achieve Council's goals WITHOUT selling off a major asset and moving convenient parking further away. We CAN activate the laneways and enhance Manly Village. The solution is renovate, not relocate. How?

1. **Revamp** the Whistler St car park - install vertical gardens, murals and a new external glass lift.
2. **Convert** the small outdoor parking area into a plaza.
3. **Remove** the ugly fire-escape in front of the library, and open up that plaza.
4. **Manage** the existing car parks better.
5. **Activate** the laneways.
